ABOUT ME

Agile, highly self-motivated, quick self learner with strong sense of product ownership and creative problem solve. Deeply passionate about software coding/development and building great mobile/web applications. Dedicated and efficient full stack developer with 2 years experience. Certified in both F/E and B/E technologies, F/E Heavy oriented. Building applications in both Angular2+ and React.

WORK EXPERIENCE

Full Stack Web Developer

KEEP IT SIMPLE [01/08/2020 – Current]

City: Skopje

Country: North Macedonia

I have been maintaining and developing betting sites for the company for a year now, using Angular 8 and building small applications like Livescreen that would show the odds and score of the match, and built a filtering menu that would allow you to change sports, leagues, time of match. Also built a mapping site that maps different feeds to one source and their outcomes, which were developed in React.

Developing the betting sites includes finding and fixing bugs, implementing features like tax on stake, building a terminal view for shop users, adding goal animations etc. Which resulted in growing revenue for the company by 20% in the last year.

Skills used: Angular 2, React, JavaScript, jQuery, TypeScript, SASS, Node.js, API integration
